

OSKAR-avani

SPC-230

Hand-Held Portable Fume Extractor W/ Exterior Safety Cage

Applications:

Welding Fumes
Grinding Dusts
Soldering Dusts

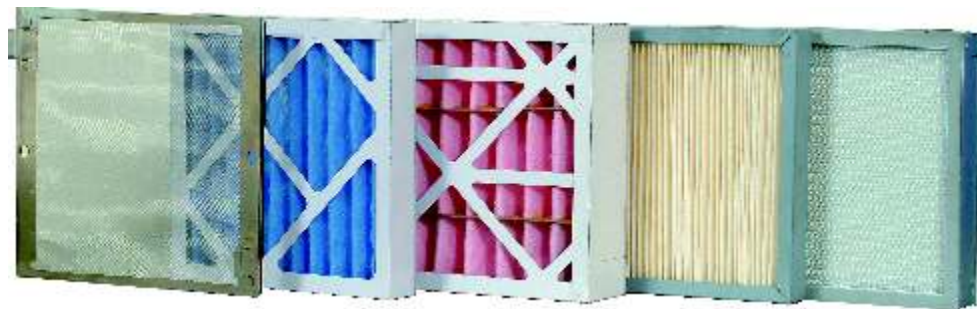

2 speed control for
high/low CFM

Oskar's SPC-230 is a portable and easy-to-carry filtration unit. The SPC-230 is designed to provide the user "Point of Origin" extraction at any working area. The 5-stage filtration system, light weight construction and 230 CFM makes the SPC-230 a very versatile and hand-held portable filtration unit.

5 Layers of High Efficiency Filtration

- 1 Stainless Filter** captures up to 95 % of sparks and steel chips down to 1 micron.
 - 2 Prefilter** captures 35% of the 2-10 micron small particles and absorbs oils to extend the life of the pleated and HEPA filter.
 - 3 Prefilter** captures 85% of 1-2 micron small particles and absorbs oil to extend the life of the pleated and HEPA filter.
 - 4 Pleated Filter** to filter fine dusts.
 - 5 Pleated HEPA filter** captures up to 95% of the 0.3 micron noxious fumes. (meets OSHA Hexavalent Chromium standards)
- * Optional **carbon filter** for gas and fume

TECHNICAL DATA

Airflow	230 CFM
Weight (without arm)	44 lbs.
Motor power supply	120V, single phase, 60 Hz
Noise level	78 dB(A) @ 3 ft
Dimensions:	19 inch
Front	27 inch
Side	12 inch
Height	2.5" diameter x 10' hose arm, 4" hood
Standard Arm
