

Portable Air Cleaner

*The Most Versatile
Portable On The Market*

Applications:

Welding Fumes
Grinding Dusts
Dry Dusts
Soldering Dusts
Powders

Oskar's SPC-750X is designed to exhaust and filter dry impurities. A highly efficient filtering cartridge makes it possible to use for such processes as welding, grinding, polishing, metal cutting, plastics and much more.

Easy Access Motor Housing

Meets OSHA's air quality standards

Features

Fume Arms Options:

- (1) 6" x 7' fume arm or 6" x 10' fume arm
- (2) 4" x 7' fume arm or 4" x 10' fume arm

99% @ 1 micron filter efficiency

Manual reverse jet cleaning

Dust re-entrapment tray

Heavy gauge powder coated steel (inside/outside)

UL approved control panel with one/off controls

Three stage filtration*:

- Metal mesh filter
- Polyester Spun Bond Cartridge 99% @ 1 micron
- Carbon after filter

**other media is available*

Easy Maintenance

- Slide out cartridge
- Hinged motor/fan cover
- External clean out drawers

no tools required

Options

- Three phase motor
- Halogen light kit
- Photohelic gauge
- Pressure gauge
- Oversized hood
- Oversized wheels
- Roll Media
- Carbon Filter
- HEPA filter (for hexavalent chromium)

Roll Media

Carbon Filter

HEPA filter

TECHNICAL DATA

Airflow at hood	750 CFM
Weight (without arm)	295 lbs.
Weight (with arm 1630P)	335 lbs.
Motor power supply	120V, 1PH, 60 Hz
Motor power	1.5HP TEFC
Noise level	69 dB(A) @ 6 ft
Compressed air	pressure 90 - 125 PSI
Dimensions:	
Front	35 inch
Side	30 inch
Height	63 inch
