

SPC-Mini

Compact Portable Cartridge Fume Extractor

Applications:

Welding Fumes
Grinding Dusts
Soldering Dusts

- Pulse cleaning
- Compact design provides “point of origin” filtration

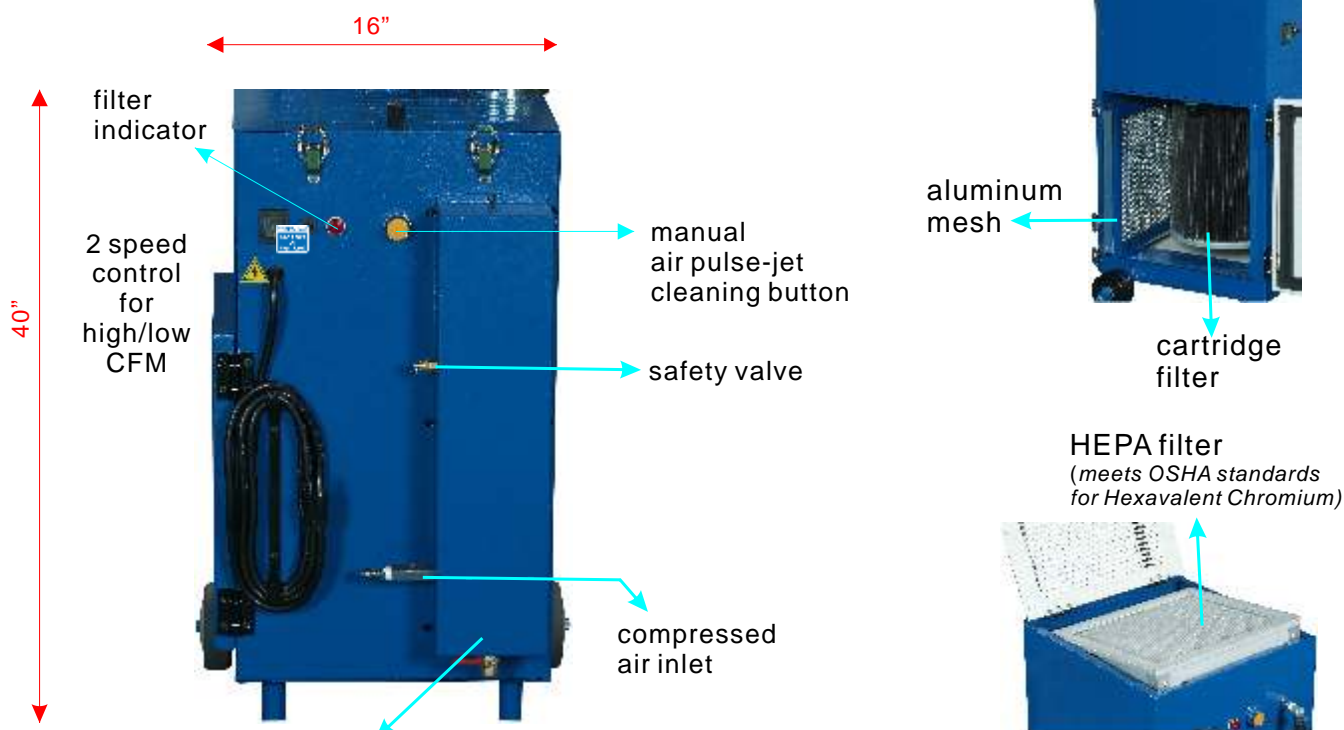

3 year cartridge guarantee

SPC-Mini

Oskar's SPC-Mini compacts all the functionality of Oskar's SPC-750 into a portable and easy to carry filtration unit. The SPC-Mini is designed to provide the user "Point of Origin" extraction in working areas or conditions that demand a compact unit. The 3-stage filtration system, light weight construction and 230 CFM makes the SPC-Mini a very versatile and portable filtration unit.

High Efficiency Filtration

A tank with full compressed air allows 3 times of pulse jet cleaning.

TECHNICAL DATA

Filters	Aluminum mesh pre-filter Cleanable polyester spunbond cartridge
Airflow	230 CFM
Motor power	800 W x 2 PCS
Motor power supply	120V, 1PH, 60 Hz
Noise level	79 dB(A) @ 3 ft
Packing size	22.6" x 18.9" x 30" (57.5 x 48 x 76 cm)
Gross weight	92.6 lbs (42 kgs)
